GitHub: github.com/omnigam115 Mobile: +91-9918841427

Skills

- **Languages:** Python, Java, C, C++
- **Backend**: Node.js, Express.js, RESTful APIs
- **Frontend:** React, Tailwind CSS, HTML, CSS
- **Databases:** MongoDB, MySQL
- **Deployment:** Google Cloud, Azure
- **Tools & DevOps:** Git, GitHub
- **Soft Skills**: Time Management, Problem-Solving, Leadership, Documentation

Projects

AlgoSort Visualizer – Sorting Algorithm Visualization Tool | GitHub Jun 2025 – Aug 2025

- **Developed** an interactive web-based platform to **visualize and compare multiple sorting algorithms** through real-time animated bar representations, enhancing conceptual understanding of algorithm behavior.
- **Implemented** dynamic controls including algorithm selection, adjustable execution speed, and live array resizing to support hands-on experimentation and demonstrations.
- **Designed** a responsive and minimal UI displaying **real-time performance metrics** (comparisons and swaps) alongside concise algorithm explanations for faster learning.
- **Tech Stack:** JavaScript, HTML5, CSS3

NOVA – Advanced AI Assistant | GitHub

Jun 2024- Dec2024

- **Engineered** a multifunctional Python AI assistant integrating conversational AI, real-time data retrieval, voice commands, and image generation for seamless productivity and accessibility.
- **Implemented** asynchronous task execution and robust API integrations (Groq, Hugging Face), enabling multitasking and smart seamless API integrations (Groq, Hugging Face) to extend assistant features.
- **Designed** voice control and responsive chat modules for hands-free operation, context handling, and user-friendly interface enhancements across desktop environments.
- **Streamlined** automation by enabling persistent context management, improving response accuracy, and facilitating rapid deployment of custom task modules.
- **Tech stack**: Python, AsyncIO, Groq API, Hugging Face API, JavaScript (front-end integration)

Certificates

- Java Programming – iamNeo – Lovely Professional University |Link May 2025
- Data Structures and Algorithms – iamNeo – Lovely Professional University |Link Dec 2024
- Python for Data Science, AI&Development | Link Feb 2024
- Foundation of Cyber security | Link Mar 2023

Achievements

- Selected among the top projects in the Artificial Intelligence course during the 3rd semester at Lovely Professional University Participated in major hackathons (Apna College, Coding Blocks)
- Completed advanced coding challenges in Data Structures & Algorithms, C++, and Python, consistently scoring above 90% in evaluations

Education

Lovely Professional University Punjab, India
- Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.84** Aug'23 - Present

Nirmala convent High School Renukut, UP
- Intermediate; **Percentage: 73%** Apr'21 – Mar'23

Nirmala convent High School Renukut, UP
- Matriculation; **Percentage: 80%** Apr'19 – Mar'21
